Communication skills

- I am open minded person who is also very flexible, I rarely get offended and have no trouble working with other colleagues in my team.
- Good communication skills in my field of work.
- Glad to help anyone with all sort of problems if I can.
- Quick learner and creative person.

Organisational / managerial skills

- Good organisational skills when working in teams acquired during middle school and college.
- Never worked in a large scale team, but eager to learn and adapt if needed.

Job-related skills

- I have vast experience working with people, listening to their orders and executing them on various types of jobs (mostly physical jobs).
- Mentoring skills(explained basic and object oriented programming to some of my colleagues with success).
- Got experience in programming during my time in school, college and occasionally by myself.
- Familiar with basics of programming(loops, conditions, pointers, headers, functions , classes...), various algorithms and data structures.
- Have been making simple programs for college (c, c++, c#, visual studio)
- Learned about windows and linux on college as well as communication networks.
